

Aevo CoreIT Features Overview

What is Aevo CoreIT ?

info@aevotec.com | (872) 215-3060

www.aevotec.com

CoreIT is a complete IT management and support solution for your business.

Our monthly pricing scales with the size of your business and includes all of the necessary equipment, licensing, and resources to manage and maintain the technology used in your environment. Unlimited professional and responsive support for your Staff, Computers, Servers, Cloud Services and Network are included with our service.

Aevo CoreIT Features Overview

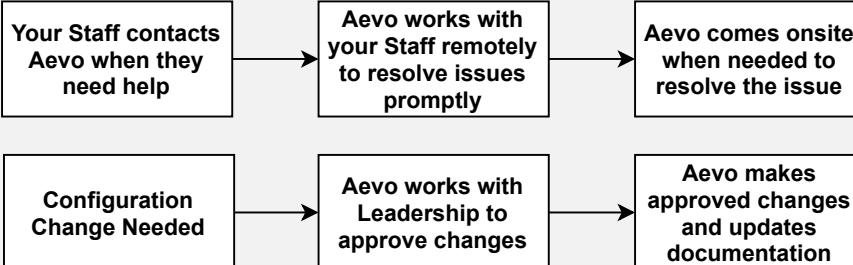

How CoreIT Works

info@aevotec.com | (872) 215-3060

www.aevotec.com

CoreIT is a complete IT management and support solution for your business.

Support

Maintain

Throughout the week, month, quarter, and year Aevo conducts routine "Health Checkups" of your various infrastructure components

Workstation
(e.g. Patching, Anti-Virus, Optimization)

Cloud and Identity
(e.g. Cloud backups, MFA, Guest Access, Security)

Server and Network Infrastructure
(e.g. Backups, Services, Security)

When needed, Aevo involves Leadership to discuss health, risks, potential changes.

Solutions

While onboarding your company, Aevo implements CoreIT Services, Standards, and Processes

Workstation
(e.g. Inventory, Security, Remote Management)

Infrastructure
(e.g. Email Security, Backups, Signature Management)

Aevo maintains a "Vision Plan" for technology upgrades that aligns with your needs and budget

We meet with you regularly to update this plan and help maintain forward momentum.

Whenever a new technology solution is needed Aevo works with you to plan and schedule a "Solutions Project".

Aevo provides a project proposal that includes pricing for services and equipment related to the project

Approved projects are then scheduled accordingly. Once the project is completed, all new infrastructure components are covered by CoreIT Support and Maintenance

Our monthly pricing scales with the size of your business and includes all of the necessary equipment, licensing, and resources to manage and maintain the technology used in your environment. Unlimited professional and responsive support for your Staff, Computers, Servers, Cloud Services and Network are included with our service.
